

Berlin, Germany, November 2007

Dear Sir or Madam,

You may already know that CCC GmbH Berlin, which I founded in the year 2000, has been sold to nkt cables GmbH. One of the main reasons for this move was and is, to allow CCC GmbH continued growth in terms of business results and volume, beyond securing the intermediate and long-term existence of the company.

It is against the background of CCC GmbH's positive economic development as well as for personal reasons that I have decided a few weeks ago to leave my post as the Chairman of the Management of CCC GmbH.

My responsibilities will be taken over by my fellow directors, Ms. Schiffer and Mr. Rasch. In the short term I will work for the nkt cables group as a consultant.

I will conduct my future work out of my own office, into which I will be transferring within the next weeks.

I thank you all for your confidence in me as a person as well as towards CCC GmbH.

CCC GmbH will continue to serve you in the future with services in the area of High Voltage Cables and System Technology as usual. The current changes in CCC's leadership are in agreement with our new shareholders, the management of nkt cables GmbH and nkt cables group GmbH, respectively.

During more than 30 years of activities in the cable business I feel honored having been able to contribute to a number of interesting projects. In this context I have met many business partners and friends in various parts of the world. I certainly appreciate having had such an opportunity.

I would like to thank you for the many years of cooperation we had together. I would encourage you to continue giving your support to the management and staff of CCC GmbH and the new shareholders.

I look forward to hearing from you in the future. If you wish to contact me please use my new e-mail address g.beining@beining-consult.com. My current mobile phone number remains unchanged: +49(0)172. 394 19 08. Details on my new office in Berlin will follow.

With best regards and good wishes for the future.

Günter Beining
